The CSI Companies Revenues Up More Than 50% in 2011

JACKSONVILLE, FL (March 29, 2012) - The CSI Companies announced 2011 revenue increased 51% over 2010. In the past 3 years, CSI has increased revenues more than 140%.

"We are very pleased with our 2011 results, despite a challenging labor market in past areas of strength such as financial services," said Rafe Sanson, CEO of the CSI Companies. "This organic growth can be attributed to our focus in the last three years on high demand sectors such as Healthcare and Information Technology."

While CSI enjoyed double-digit revenue increases in all divisions, a majority of the growth occurred in its CSI Tech Staffing and Solutions and CSI Healthcare IT divisions. CSI Tech and CSI Tech Solutions partner with companies on their staff augmentation and intellectual capital needs for a wide range of IT projects. CSI Healthcare IT is a valuable partner with large healthcare facilities nationwide, providing resources for EHR (Electronic Health Records) implementations.

In early 2012, CSI hired additional recruiting and support staff to support ongoing demand in these areas.
